## OUR PURPOSE

We exist to ensure quality professional services are accessible to businesses in the UAE. We achieve this by consistently learning to do things better and faster with the right people, processes and technology.

## VALUE ADDED SERVICES

### Accounting

- Data entry, monthly review and reporting
- Catch up backlog data entry
- Report financial performance and position
- Support decision makers to analyse performance and trends
- Ensure legal and tax compliance
- Control overheads and cost over-runs

### Risk and Internal Control Advisory

- Check adequacy of Internal control systems
- Ensure transactions comply with internal control systems
- Identify areas prone to fraud and error and improve controls
- Identify duplicating activities that increase costs
- Reduce risks of revenue leakages

### Consulting

- Business valuations
- Ascertain project feasibility
- Support in raising capital or debt
- Develop cash flow management systems
- Present and analyse investment options
- Restructure/simplify processes for optimum resource utilization
- Projected financial performance and position
- Functional support in information systems (ERP and others)

## Get to know us

We are a team of industry experienced chartered accountants and finance professionals who continuously strive for excellence. We have been supporting clients from various industries in the region since 2017. We invest in continued learning that keeps us updated in reporting and compliance requirements of the region. We adopt time saving and work sharing tools that make the finance and accounting domain easy, error-free and less expensive.
